Living with Land Mines - Free Rides

I enjoyed the “Living with Land Mines” piece in the February issue.

Our club runs a program in Cambodia that gives young mine victims bicycles to ride to school.

We’ll give away 300 bikes this winter, with club member Lisa McCoy on site, ordering and delivering the US\$50 rides.

It’s one of a few projects she raises funds for through Rotary, including a Muskoka computer school and sewing and dental programs.
